Hi oxitec team,

I used the combine function in Microsoft word to create a single word doc with the comments from Rick, Anne, Adam, and Chris. I did not combine the OGC comments because they provided comments on an older version of the document.

I am not sure if the word combine function preserved **\*all\*** of the format changes accurately... but it did capture all of the comments from the 4 versions in one file.

Hopefully you will find this helpful..

Thanks,
